PRINCIPAL'S MESSAGE

Welcome to the inauguration issue of the School Newsletter! My heartfelt gratitude goes out to the sincere efforts of our Publication Committee, teachers, and students for getting this first issue published.

What is more thrilling than to get students involved and all stakeholders informed of the school activities and events? This is the rationale for publishing both the bi-monthly Newsletter and a school yearbook. Our Jubilean family will now be able to receive a fond keepsake of the highlights and exciting events of the school year. So, what then are the differences between the events shared in this Newsletter, on the school website, We are Jubileans Facebook page and Instagram? Our Publication Committee shared with me that they will focus on glimpses into the fun school life and updates from school clubs and societies. What a great way to share different aspects of our school experiences and to develop relationships within our Jubilean community! Happy reading!

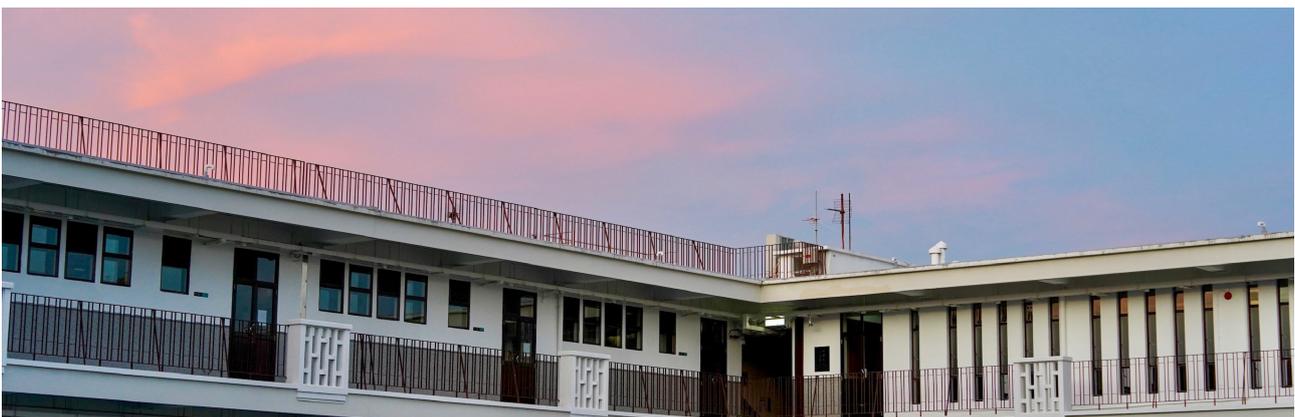

60TH ANNIVERSARY KICK OFF CEREMONY

This September, we were greeted with the diamond jubilee of our school— the 60th year since Bishop Hall founded the school. Standing firm for 6 decades, this event truly connects us students as one; students of the past, and of the present each decade, as students from different generations of the school's long history celebrate. After a long period of pandemic restrictions that stopped our school from holding assemblies, Jubileans were delighted to finally connect with each other.

An exciting opening ceremony was held where several representatives from different houses held makeshift torches and raced to deliver golden pins and presents to classes to commemorate the 60th Anniversary. Each representative live-streamed their own delivery to each class, adding tension and excitement to the event. The torches and gift-giving symbolised higher forms passing on the BHJS spirit to their juniors.

To conclude the kick-off ceremony and officially commemorate the 60th Anniversary, teachers in the hall held their hands over a large crystal ball, which showed a hologram of the anniversary logo. This symbolised the connection, commitment and dedication of all school staff these past 60 years. With the support of the school staff, Jubileans will grow, glow and soldier on.

SU CONSULTATION

In mid-September, we held the exciting and long awaited SU Consultation. Due to the pandemic, this year, only form 4 students could sit in the hall and participate face to face. However, it did not affect the atmosphere as students were still able to raise questions through their class representatives.

At the very beginning, the Chairperson of Lontano apologized for a few mistakes and clarifications in their policy, in which they also admitted they had improvements to make but they fervently wished and promised they would work harder in the future.

Soon after the opening speech and clarifications, it was time for questions raised by last year's Student Union. The Whiteboard Answering Session followed, where the candidate cabinet picked up one of their members and answered questions raised by the MC themselves. In my opinion, this was the most relaxing and interesting section. Despite the challenging questions, members from Lontano still answered them well and won the appreciation from all students and teachers. For instance, for one question, they needed to choose between SU and academics, and they chose SU as they believed they are meant to serve not only themselves, but the whole school. We could hear the applause from schoolmates in our classroom through campus TV.

Last but not least, the consultation session ended with the closing speech and great gratitude from Mr Choi. He admired Lontano for their hard work throughout the summer holiday and thus thanked every student and teacher.

SU ELECTION

After some days, it was finally the SU election which every Jubilean was looking forward to so much.

After the election, our schoolmates agreed that Lontano was competent to do the job as the next Student Union. Let us wish them all the best in this coming year.

A few hours after the results were announced, Lontano posted their first instagram message as the incumbent SU. They were delighted and grateful to those who trusted them. They hope to win over the ones who did not vote for them. They also thanked all friends and schoolmates who walked with them on this path to the Student Union of 2021-2022 which was undeniably full of trials.

***“Our biggest goal is to help Jubileans to enjoy their campus life,”
said Lontano.***

The result is as follow:

Collected ballots: 815 ballots

Valid ballots: 780 ballots

Proposed Cabinet Lontano

Support: 512 ballots

Non support: 232 ballots

Blank ballots: 36 ballots

Invalid ballots: 35 ballots

A big congratulation goes out to Lontano! We hope that they can bring us a fruitful school life, continue to serve genuinely and strive for improvements for every Jubilean as promised.

HOUSE MEETING

The 30th of September was the House Meeting Day. The four Houses gathered in the hall and classrooms to unite as a house while playing games and doing activities. It was undoubtedly an incredible chance for new-comers to engage with their own houses and strengthen their sense-of-belonging to the school.

For the Green and Blue Houses, they took turns to have their meetings in the Activity Centre. Operated by the House Captains, they introduced themselves in the meeting by playing their own promotional videos to students. Students sure had a fun time seeing seniors introducing the house to them, alongside the House Teachers. Houses had different expectations this year. The House Teacher of Blue House, Mr. Tang, was extremely confident in the committee members this year,

“Their goal is to run the Blue House and make it better. We have a brand new vision this year.”

For the Red and White Houses, they rotated their meetings in the school hall. We captured the special moment of their Award Presentation for those who brought achievements to their Houses in the past years.

During this House Meeting Day, students cheered for their own houses and their spirits sparkling in their hearts. It was exhilarating to feel that kind of exuberant atmosphere, standing in the hall surrounded by applause. We wholeheartedly hope that every house can reach their goals and bring a joyful year to all students!

DIALOGUE WITH DR LEE

WHO'S YB? LET'S KNOW MORE ABOUT HIM!

Dr Lee Yui Bor (YB) graduated from BHJS in 1965. He took Electrical Engineering at the University of Hong Kong and earned a BSc (Hons) degree in 1970. He furthered his studies in the UK and was awarded DIC and MSc (Eng) with distinction at Imperial College London, in 1972. In 1973, he joined the University of Bath for research and received his PhD in 1975.

Working in CLP Holdings for 30 years, Dr Lee held various key positions, including Chief Planning Engineer, Managing Director of CLP Power (China), and Group Executive Director when he retired in 2007. Under his leadership, CLP developed and managed a portfolio of joint ventures on the Mainland, which made the company the biggest foreign investor in

the Chinese Power Sector. After retirement, he remained on the CLP Board as Non-executive Director until 2019.

Dr Lee taught final-year and postgraduate students and conducted research in power system engineering at the University of New South Wales in Australia from 1985-87. He was also an Honorary Professor at the Faculty of Engineering at the University of Hong Kong from 2007-19.

Being an Honorary Fellow of the Association of Electricity Supply Industry in East Asia and Western Pacific and elected President in 1992, Dr Lee is a Fellow of the Hong Kong Institution of Engineers and a Chartered Engineer.

Dr Lee delivering the Vote of Thanks at the first Speech Day held in the year 1965

Students' Reflection

We would like to once again thank Dr. Lee for taking the time to have a dialogue with us for several hours. We would also like to express our gratitude to Mr. Gordon Lee Hon Pui, Ms. Ho and Mr. Kwong for hosting this fruitful event during the post-exam period.

Lai Yan Hei

Dr. Lee was so friendly that his chat made us feel relaxed. He shared his experiences about choosing the right career path and the difficulties he had faced while working at CLP. After his sharing, I understood that the path to success requires not only good academic results, but also the ability to communicate and cooperate with others. I knew little about engineering before the dialogue, and even though I am not interested in this field of study, I have a much better idea about my career path.

Lee Hin Kit

Dr. Lee shared with us his experiences in tackling various crises when he was still working for CLP. It was a precious opportunity to learn how Dr. Lee resolved such complex issues, like the blackout of 1984. I now understand that solving a problem requires numerous techniques and knowledge, such as communication skills and leadership. I can still remember Dr. Lee's advice on becoming better equipped for our futures. If well prepared, we can come to grips with problems and grasp opportunities with relative ease.

Law Chung Sun

During this talk, I not only learned more about different aspects of engineering, but also about the four key areas of success: being passionate about our job, preparing for opportunities, predicting the future and being quick off the mark, and being well-equipped with excellent communication skills. If I had not participated in this fruitful and meaningful event, I would still have been frustrated about my future.

Cheng Yu Sum

Before I joined, I had doubts about the applications and utilities of advanced mathematics knowledge, such as integration or matrices, which seem too abstract for daily life. After the talk with Dr. Lee, however, besides learning more about the physical mechanisms of voltage-related systems, I also gained an overview of some applications of mathematics behind CLP's massive power network system.

THE 13TH HONG KONG OUTSTANDING TEENS ELECTION

5D Lin Kai Chun, Charlie (2020-21) participated in the 13th Hong Kong Outstanding Teens Election organized by the Hong Kong Playground Association and RTHK etc. The election was established in 1995 and has been held every two years since 1998. Teens aged 11-17 are eligible for the election. Charlie was awarded the “Hong Kong Outstanding Teens Award” (Social Participation Section).

This award recognizes teens who participate enthusiastically in society and respond to the needs of society so as to arouse public interest in those who need attention, contribute to the community and have outstanding performance, such as caring about social development and participating in services. The award ceremony was officiated by the Chief Executive, and reported by various media outlets.

THE 33RD HKSAR OUTSTANDING STUDENTS SELECTION

Charlie was also awarded as one of the Top Ten Outstanding Students in the 33rd HKSAR Outstanding Students Selection. Not only did he become a member of the Hong Kong Outstanding Students' Union, but he also had the chance to represent HKSAR to take part in overseas exchange programmes. Charlie's substantial contributions to society were highly recognized and reported by various media outlets.

Having gone through three rounds of interviews to win the award, Charlie recalled being especially nervous for the last round as the interview panelist was the former Secretary of Education. "I noticed it just before the interview, so I was a bit overwhelmed. However, I thought it's also an exciting challenge which I would gladly accept." Charlie felt grateful and gleeful about the experiences and friendships he gained from the competition. As Charlie received more affirmation from the new milestone in his life, he is determined to become a more active facilitator of social services and will continue to offer support to the community.

We would like to congratulate our fellow Jubileans for their outstanding achievements in various competitions!

OUTSTANDING STUDENT LEADER AWARD

5D DENG SIN YEE, SANDY (2020-21) JOINED THE "OUTSTANDING STUDENT LEADER AWARD" ELECTION, CO-ORGANIZED BY THE HOK YAU CLUB AND THE HONG KONG POLICY RESEARCH INSTITUTE. AFTER A SERIES OF TRAINING AND INTERVIEWS, SANDY STOOD OUT AND WAS ELECTED AS ONE OF THE TOP TEN OUTSTANDING STUDENT LEADERS IN HONG KONG. SHE WAS ALSO PRESENTED WITH THE HOK YAU CLUB SCHOLARSHIP.

Sandy told us that the competition emphasized students' values and how they position themselves as a leader. Having been elected as one of the top ten finalists, Sandy believed her vast experience in joining student campaigns helped her better understand herself, "I know what I can do to contribute to the community as a leader. I think it is my strength." Besides that, she also learned a lot from the other candidates and had her horizon broadened.

第七屆聯合盃中文辯論比賽

中文辯論隊奪得第七屆中大聯合盃季軍！中辯隊在八月廿一日，以4:1勝出季軍賽對手(聖公會莫壽增會督中學)。

疫情下，不少課外活動形式都因此改變，辯論亦不例外。聯合盃初賽一律只能在網上舉行，直至季軍賽才能進行實戰，辯員黃詩喬認為網上比賽不比現場比賽刺激，雙方氣勢也難免大減弱：「最後一戰終能以實體舉行，讓我倍感珍惜。」她又指，實體比賽能增加中辯隊與友校同學賽後交流心得的機會：「賽後我們仍保持聯絡，收穫了珍貴的友情。」

除了台上辯員，台下發問員也功不可抹！其中一位發問辯員吳卓庭表示，對友校的結辯印象尤其深刻：「他應變能力強，以風趣幽默的形式來表達論點，讓賽場氣氛輕鬆起來。」吳卓庭形容賽況激烈，在場上十分享受。他感激負責老師及導師，為隊伍爭取了很多團體練習的機會，讓隊員們默契十足。

台上辯員：

5D 連啟晉、4D 黃詩喬、

3A 黃婉晴、1E 邱悅芯

台下發問辯員及影子隊：

4E 吳卓庭、4E 朱雅文、2D 黃璐兒

辯題為：

甲方：當代香港年輕人更應該抱持「延遲滿足」的生活態度

乙方：當代香港年輕人更應該抱持「及時行樂」的生活態度

我隊為乙方。
